UV 乾燥機

UV CURING MACHINE

特性：

1. 瞬間乾燥，可立即進行後續作業，省時、省立。
2. 連線作業，印刷後成品直接乾燥，免除搬運之苦，並可減少存放空間，提高效率。
3. 印刷工件表面立即乾燥，光潔亮麗。
4. 適用範圍廣，舉凡木器、合板、建材、壁板等。

FEATURES：

1. Instantly drying, which can be processed continuous processing promptly, time & labour saving.
2. Intergrated line processing, the printed products directly drying, free trouble of transporting and reduce the storage space, Especially, advance the productivity efficiency.
3. The workpiece surface will be dried promptly, smooth & beautiful.
4. Versatile application, such as, wood-wares, veneer board, ply-wood, construction material, wall panel etc.
